Forecast For East Midlands
Issued by Met Office Exeter
at 1600 on Monday 01 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Extensive low cloud, fog tonight. Some bright spells possible Tuesday.

This Evening and Tonight:
Fog and low cloud soon reforming this evening, becoming extensive and widespread overnight. Turning chilly overnight with a chance of frost in any clearer spells, these mainly over western high ground. Minimum temperature -1 deg C (30 deg F).

Tuesday:
Mostly cloudy with early widespread fog lifting into low cloud. Some bright spells developing in the west and south by afternoon, but cloud lingering elsewhere. Rather cold where cloud persists. Maximum temperature 8 deg C (46 deg F).

Outlook for Wednesday to Friday:
Wednesday, rather cloudy with showers developing after early fog. Rather cloudy initially on Thursday, some showery rain followed by clearer, dry and cold conditions into Friday.
